**RESPONSE TO NOTICE OF INCOMPLETE NONPROVISIONAL APPLICATION
AND PETITION TO ACCORD THIS DIVISIONAL APPLICATION A FILING DATE
OF APRIL 8, 2004**

Sir:

On May 13, 2005 (over one year after the Applicant filed the above-referenced patent application), the Patent Office mailed a Notice of Incomplete Nonprovisional Application in the above-referenced patent application. The Undersigned respectfully submits that the Notice was mailed in error and as such should be withdrawn, and the original filing date of April 8, 2004 be granted.

06/15/2005 SSITHIB1 00000161 200778
01 FC:1462 400.00 DA

With such a filing date, this application enjoys the priority benefit of the now-issued parent patent.

The Patent Office is hereby authorized to charge the \$400 for this petition fee to deposit account 20-0778. The Patent Office is further authorized to charge any additional fee that may be required to this same deposit account.

Request for Refund

Further to the information provided above, Applicants herein request a refund of the \$400.00 petition fee. Applicants assert that the misplacement of the formal drawings is an error by the USPTO, and not an error of the Applicants. Applicants assert that the necessary documents were included in the original filing of the above-referenced divisional application. Notwithstanding, the incorporation by reference of the parent application (made in the preliminary amendment filed in this case), effectively incorporated the content of these drawings into this application.

Respectfully submitted,

By:

The Notice states that the application was deposited without drawings. Applicants disagree. Applicants assert that three pages of formal drawings were filed in the divisional application on April 8, 2004. Applicants have attached copies of the various documents to support this assertion.

Attached hereto (Tab A) is a photocopy of the return postcard that was filed with the original application in the above-referenced patent application. The postcard lists that 3 pages of drawings were included in the filing. As well, the USPTO has stamped the postcard, thereby confirming receipt of all documents listed.

Also attached hereto (at Tab B) is a photocopy of the certificate of express mail filed with the above-referenced patent application. Item 5 of this document states that new formal drawings were enclosed in the filing.

In addition to the foregoing, attached hereto (at Tab C) is a photocopy of the Preliminary Amendment filed with the above-referenced patent application, asserting that this application is a divisional of patent application 10/205,520 (now patent no. 6,879,203), and incorporating that application by reference. The drawings in the above-referenced divisional application are the same as those filed in the parent application, and therefore form part of the present specification (by virtue of the incorporation by reference).

It appears that the drawings were likely lost by the PTO, after receipt of the present application (not unlikely, as this application file was filed with the PTO more than one year before the PTO sent out this Notice). The undersigned has provided herewith a courtesy copy of these drawings, so that the PTO can supplement its files.

As the parent application has now issued, and in view of the foregoing facts, the undersigned hereby petitions the Patent Office to grant the original April 8, 2004, filing date.
